Perk Lip is a refreshing treatment that exfoliated, hydrates and plumps your lips for that perfect pout. Perfect for that special occasion, includes a take-home serum for daily application to extend results

Why should I choose HydraFacial MD™?

HydraFacial is an innovative, multi phased treatments where every step works together to achieve the “Best Skin of your Life”. HydraFacial can be used on almost every skin type to address every skin condition. The extraction process or “Gunkie Junkie” phase uses patented Vortex technology to vacuum, blackheads, white heads and debris from the skin. Wait until you see what is collected in the Gunkie canister!

The HydraFacial Serums specifically target your skin issues, including fine lines and wrinkles, sun damage, congestion, acne, uneven skin tone and enlarge pores. The HydraFacial actually improves the health of your skin giving you “Skin Health for life”™

How often can I have a HydraFacial MD™?

For best results we always recommend having a course of 6 treatments. Your specific skin concerns will be taken into consideration to determine how often but as a general rule we suggest fortnightly or monthly. Very congested skin can benefit from weekly treatments.

What can I expect after my HydraFacial MD™?

You will notice instant results with your skin feeling smoother and looking clearer. If you have blackheads and congestion your skin will instantly look clearer and pores reduced. Your skin will glow and look dewy. In the following days you may experience some tightness and dryness, this is normal as it has been exfoliated, just increase your moisturiser.

Advanced Treatments

All of our advanced treatments are provided using safe, proven and modern technology that embraces the latest and greatest skincare knowledge and products to deliver powerful and lasting results.

Observ Skin Health Check

A full skin health check using our Observ diagnostic camera is available to anyone wanting to gain an in depth analysis of their skin before determining the best treatment plan. It also allows us to take before and after photos. The Observ Skin health check will examine the following: wrinkles and fine lines, the sebum (oil) content of your skin, pigmentation, allowing us to assess freckles, sun spots and age spots, pore size, the moisture content of your skin, skin firmness and your skin overall tone and skin health.

\$50 (Redeemable on purchase of skin care)

Dermafrac Treatment

Our Dermafrac treatment is an amazing 3 in 1 micro channelling treatment, designed to effectively treat skin concerns by infusing serums to the epidermal junction, ensuring these professional strength serums are able to penetrate to the layers of skin where they can do their best work. \$220 or \$245 with Gel Peptide Masque.

About this treatment

Microdermabrasion – to slough away surface dead skin cells. Ensuring the skin most effectively absorbs the corrective serums.

Fractional Infusion Therapy – a micro channelling technique used to infuse high quality, potent serums for a delivery to the epidermal junction. When the molecules reach the epidermal junction, your skins natural rejuvenation process is stimulated.

LED – a high energy light therapy to reduce redness and calm the skin.

Microdermabrasion

Our microdermabrasion treatment is a deep and effective exfoliation treatment that sloughs away surface dead skin cells to make way for skin renewal and freshness. The procedure is a minimally invasive procedure that is used to renew overall skin tone and texture, improving the appearance of sun damage, wrinkles, fine lines, age spots, acne scarring, melasma, dull and uneven skin tone and other skin-related concerns and conditions.

Microdermabrasion is considered a safe procedure for most skin types and colouring.

About this treatment

This treatment can be a stand-alone treatment which will be offered with a skin consultation, double cleanse incorporating our Ultrasonophoresis cleanse and infusion. Or you can choose to upgrade one of our Ultraceuticals skin treatments to achieve optimum results which will include massage and masque elements making it a more luxurious and still results driven outcomes. It is recommended for best results you have a course of six treatments in conjunction with prescribed homecare and incorporating Ultraceutical peels.

About this treatment

LED light therapy can be performed as a stand-alone treatment, which includes a double cleanse, mild exfoliant and daily SPF protection or as an add on to one of our existing skin treatments. However, we highly recommend a course of up to 10 treatments twice weekly to achieve optimal results. LED can also be incorporated pre and post Plasma fibroblast and DNT Skin Needling treatments to aid in recovery.

Laser Hair Removal

Laser treatment for hair removal means fast and reliable, permanent hair reduction - no more razors or waxing.

Our laser hair removal treatment directs concentrated light into the hair follicle inhibiting the hair's ability to grow, without damaging the skin's surface. Our experienced Therapist will take your skin and hair type into account before creating a personalised treatment plan.

Plasma Fibroblast Skin Tightening

An amazing, modern alternative to eyelid lift surgery, wrinkle treatments and loose skin tightening, this treatment effectively shrinks excess skin, bags and wrinkles. It works by using a tiny plasma arc to stimulate an instant contraction and tightening of the skin fibres. This is a fantastic anti-ageing solution for those who do not want to go under the knife, but are looking for a scarless, truly beneficial and more affordable solution. Little down time, no damage to the skin, no open wounds, no general anaesthetic and no cutting or stitching.

About this treatment:

This treatment requires the client to have been on a full prescription of home care for at least six weeks prior, to optimise the results and make sure the skin is strong and healthy enough to recover and achieve the best results. A full skin health check using our Observ diagnostic camera is required before the treatment to determine the best treatment plan and to take before and after photos. It is recommended you call the salon and speak to one of our therapists to discuss your skin concerns before moving forward with Plasma Fibroblast treatments.

Collagen Induction Therapy – Skin Needling

Skin needling, or microneedling is one of the most innovative rejuvenation therapies available today. As we age the production of fibroblast cells that stimulate the growth of collagen and elastin reduces, resulting in sagging of the skin, appearance of wrinkles and fine lines and loose skin.

In order to achieve healthier and younger looking skin, we must aid our bodies in creating collagen and elastin for healthier and younger looking skin and this can be done through skin needling treatments.

Skin needling creates micro-injuries which trigger the growth of fibroblast cells that stimulate the skin to again produce collagen, resulting in healthier, plumper and smoother-looking skin.

Skin needling is suitable for all the skin types and tones, and is especially beneficial to people who have issues such as acne scarring, wrinkling, fine lines and enlarged pores.

Epidermal Levelling: Stand alone treatment	30 mins	\$75
Add on to any Signature treatments	30 mins	\$60
Deluxe Epidermal Leveling Facial	90 mins	\$185

Epidermal levelling is a simple and non evasive treatment used to exfoliate dead skin cells and remove unwanted vellus (peach fuzz) hair.

The treatment uses a straight edge surgical blade to give you an exfoliation like microdermabrasion without the use of abrasive techniques or technology.

There is no downtime, pain or chemicals, leaving the treatment safe for all skin types.

About this treatment:

Epidermal Levelling can be a stand-alone treatment which will be offered with a skin consultation, double cleanse and Skin spf protection. Or you can choose to upgrade one of our Signature facials. We have designed our Deluxe Epidermal Leveling Facial to include massage and Peptide sheet mask to achieve optimum results making it a more luxurious and still results driven outcome. This treatment is ideal for very sensitive skins which require exfoliation without using a chemical or manual method. It has the added bonus of removing the vellus hair (peach fuzz) leaving the skin smooth, soft and ready to accept skin care ingredients more readily. This treatment is also a must before a special occasion such as a wedding to give a perfect finish to makeup. A full skin health check using our Observ diagnostic camera is required before the treatment to determine best treatment plan and to take before and after photos
